

## PROSPECT RESEARCH RESOURCES

**Foundation Center:** [www.foundationcenter.org](http://www.foundationcenter.org)

A key initiative of the Foundation Center is to reach under-resourced and underserved populations throughout the United States and in other locations around the globe, who are in need of useful information and training to become successful grantseekers. One of the ways they hope to accomplish this goal is by designating new Cooperating Collection libraries in regions that have the ability to serve the nonprofit communities most in need of Foundation Center resources.

Cooperating Collections are free funding information centers in libraries, community foundations, and other nonprofit resource centers that provide a core collection of Foundation Center publications and a variety of supplementary materials and services in areas useful to grantseekers.

There are five Cooperating Collections in Arizona:
