

Frequently Asked Questions
AZBOSCOB Bonus Project Application Review Webinar
September 12, 2024

1) Can these funds be used for construction already in progress?

Answer: No, these funds are not for construction of any kind, new, rehab or in progress.

2) Can RRH funds be used to keep a household housed, if they have a crisis and can't pay rent?

Answer: No, RRH funds are not emergency crisis funds for a household already housed and HUD clearly states that CoC- RRH assistance may not be used for payment of rent in arrears. So even if the household was in RRH, if they get in arrears CoC RRH funds cannot be used.

3) Is a Victim Service Provider Agency eligible to apply for CoC funding if they do not participate in HMIS?

Answer: Yes, they may still apply as long as they are using a comparable database and participate in Coordinated Entry. Full participation and integration of victim service providers into the CoC coordinated entry process is necessary. The form this integration takes will vary by community/LCEH, but the overarching goal is for individuals and families presenting to the homeless and victim services system to have full and complete access to the housing and service resources available through both systems.

3) Will the PowerPoint presentation be available?

Answer: Yes, the PPT will be posted on the website.

If you have additional questions, please call Candee Stanton at 602.881.6606 or email her at candee.stanton@gmail.com.
