## WHAT IS A QUALIFIED CONTRACT?

All Qualified Low-Income Housing Projects allocated Low Income Housing Tax Credits (“LIHTC”) in the 1990 tax year or later must comply with all LIHTC requirements for the duration of the Extended Use Period, a period of not less than thirty (30) years after the project is placed in service. However, the Land Use Restriction Agreement (LURA), Section 42 (h)(6)(E) of the Internal Revenue Code (IRC), allows the extended use period to terminate after the original fifteen (15) year compliance period by applying to the State Tax Credit allocating agency for a Qualified Contract, provided the owner did not waive such rights. Section 42(h)(6)(I) of the Internal Revenue Code provides that Project owners may apply to the state Tax Credit allocating agency for a Qualified Contract after the fourteenth year of the Compliance Period.

A Qualified Contract is a bona fide contract to acquire an LIHTC project for the sum of the existing debt, adjusted investor equity and other capital contributions, less project cash distributions as set forth in IRC §42(h)(6)(F). The “Qualified Contract Price” will establish the minimum price which is required by IRC Section 42. Under the Qualified Contract process, the State Tax Credit allocating agency has one year from the date of application to procure a qualified buyer to purchase the project at the Qualified Contract Price. If the agency fails to do so, it may release the project from the requirements of the LIHTC subject to the three-year deregulation period required by IRC § 42(h)(6)(E)(ii).

## THE QUALIFIED CONTRACT APPLICATION PROCESS

This Qualified Contract Application describes the process and the requirements for requesting that the Arizona Department of Housing (“ADOH”) procure a Qualified Contract buyer to purchase a Qualified Low Income Housing Project from the owner. This application implements the Qualified Contract process described by IRC § 42(h)(6)(F). Only Qualified Low-Income Housing Projects (i.e. LIHTC properties with no outstanding I.R.S. 8823 forms) after the fourteenth year of the Compliance Period or later are eligible to apply for a Qualified Contract. By executing this application, the applicant agrees to the Qualified Contract process described below. To initiate the ADOH Qualified Contract Application Process the property owner must **submit the following items through the ADOH Asset Management Portal**:

- 1) Cover letter describing the project and its eligibility for a Qualified Contract;
- 2) Completed application forms (parts A, B and C);
- 3) All documents and materials listed in part D - “Documents and Supporting Materials”;
- 4) Signed Owner’s Warranties and Representations (part F);
- 5) Calculation of the Qualified Contract Price (part G) as of a date within ninety (90) days of the date of application.

In addition, the fees described below must be paid through the ADOH Payment Portal or by delivering them to the ADOH office:

- A non-refundable Administrative Fee in the amount of \$5,000.00; and
- A Professional Service Fee may be required in accordance with ADOH requirements.

Upon submittal of a Qualified Contract Application, the Owner will be provided with a “LURA Amendment Options Form”. This Form will afford the Owner an opportunity to amend the existing Land Use Restriction Agreement (LURA) recorded against the Property to increase the rent and income restrictions identified in the LURA to 50% or 60% AMI through the remainder of the Extended Use Period in accordance with the initial election of the project. In other words, a unit currently restricted to 20% AMI, 30% AMI, or 40% AMI would be restricted to 50% or 60% AMI, as applicable when the LURA is amended (“LURA Amendment”). This is the **only** change that would be permitted to the LURA. The LURA Amendment shall only be available to Owner if a Qualified Buyer is not identified during the one-year qualified contract period according to the Qualified Contract procedures identified herein.

- If Owner elects to pursue a LURA Amendment, the Project will be marketed according to the Qualified Contract procedures identified herein. If a Qualified Buyer presents an offer during the Qualified Contract period accepting the LURA as-is (with the existing rent and income restrictions below 50% or 60% AMI as applicable), the Buyer will be considered to be presenting a Qualified Contract, which may be accepted by the Owner. If the Owner does not accept the Qualified Contract presented by the Buyer, this action by the Owner voids the LURA Amendment Option and the Owner will be required to maintain the original rent and income restrictions for the remainder of the Extended Use Period.
- If the Owner does not elect to pursue a LURA Amendment, the Project will be marketed to potential Buyers during the Qualified Contract period. A potential Buyer who presents a Qualified Contract would be afforded the option to pursue a LURA Amendment. If a Buyer presents a Qualified Contract accepting the LURA as-is (i.e., with the existing rent and income restrictions), that Buyer's Qualified Contract supersedes a Qualified Contract requesting a LURA Amendment. If the Owner does not accept the Qualified Contract from the Buyer, the Owner will be required to maintain the original rent and income restrictions for the remainder of the Extended Use Period.

More specifically, to pursue a LURA Amendment, the Owner must agree to the following:

- Allow the property to be marketed for the qualified contract period
- Comply with the terms of the existing LURA throughout the qualified contract period
- Execute a LURA Amendment to take effect at the end of the qualified contract period with language that holds ADOH harmless as a result of any changes to the rent and income restrictions that take effect at the close of the qualified contract period
- Allow existing tenants with existing rent and income restrictions below 50% or 60% AMI as applicable, to remain in their units with the existing rent and income restrictions for a three-year deregulation period beginning at the end of the qualified contract period. Once the LURA Amendment is in effect, the Owner would be permitted to lease vacant units to new tenants at the 50 or 60% AMI rent and income restrictions, as applicable.
- Tender a Legal Opinion from Owner's counsel holding ADOH harmless as a result of any changes to the rent and income restrictions pursuant to the LURA Amendment

If Owner foregoes a LURA Amendment and no Buyer presents an offer to purchase the Project as-is (i.e. with the existing rent and income restrictions), a Buyer opting to pursue a LURA Amendment must agree to the following:

- Tender a qualified contract
- Execute a LURA Amendment at the time the LURA is assigned and assumed by the Qualified Buyer with language that holds the Department harmless as a result of any changes to the income restrictions that take effect at the close of the qualified contract period
- Allow existing tenants with existing rent and income restrictions below 50% or 60% AMI, as applicable to remain in their units with the existing rent and income restrictions for a three-year deregulation period. Once the LURA Amendment is in effect, the Buyer would be permitted to lease vacant units to new tenants at the 50% or 60% AMI rent and income restrictions, as applicable.
- Tender a Legal Opinion from Buyer's counsel holding ADOH harmless as a result of any changes to the rent and income restrictions pursuant to the LURA Amendment

The Department will use the Professional Fee Deposit to cover the costs of an appraisal prepared by a State-certified general appraiser and other third party reports as deemed necessary. In the event that the Professional Fee Deposit is not sufficient to cover the cost of third party reports, ADOH will invoice applicant for any additional amount. The Qualified Contract Application will not be reviewed until the Administrative Fee and Professional Fee Deposit are received. Failure of applicant to remit any additional amounts requested by ADOH within thirty (30) calendar days will result in the suspension of further action on the Qualified Contract by ADOH and the property will remain affordable through the term of the LURA. Copies of any professional reports or opinions commissioned will be provided to the applicant upon request when they are available to ADOH.

ADOH will review the third party reports and other available information. Upon acceptance of the third party reports ADOH will offer the project for sale to the general public, based upon reasonable efforts, at the determined Qualified Contract Price. This includes, at minimum, advertising the availability of the property on its website, issuing an information bulletin to its mailing list and continuing its efforts until a Qualified Contract is presented to the owner or the one (1) year period has expired. The Department may disqualify prospective purchasers who have failed to demonstrate the experience and capacity to manage the project in accordance with IRC § 42, its implementing regulations and the Arizona Qualified Allocation Plan.

In the event that the owner fails to cooperate with ADOH in the marketing of the property, ADOH may suspend the one (1) year Qualified Contract period or deem the project ineligible for a Qualified Contract and the owner will be required to comply with the full term of the Extended Use Period of the LURA. Failure to cooperate shall include, but not be limited to, Owner's failure to complete the application, respond to any ADOH request for documentation, delay or refuse to allow inspections of the property by prospective purchasers.

The Owner is not required to accept any purchase offers presented through ADOH; however, if the Owner rejects an offer at or above the Qualified Contract Price, the development will remain affordable throughout the term of the LURA recorded against the property.

If ADOH fails to present a Qualified Contract to purchase the project property by the end of the one (1) year Qualified Contract period, ADOH may issue a Partial Release and Release of Declaration of Affirmative Land Use Restriction Covenants Agreement ("Partial Release"). This document terminates and releases the Land Use Restriction Agreement except as required by IRC §42(h)(6)(E)(ii). If there are any compliance issues at the property, ADOH would delay or consider revoking the Partial Release until such time as the issues are corrected.

The execution of a Qualified Contract or passing of the one (1) year Qualified Contract term shall not result in the termination of any restrictive covenant or other regulatory agreement related to a source of funding other than the Low Income Housing Tax Credit program.

On behalf of \_\_\_\_\_ [Name of Owner], pursuant to § 42(h)(6)(E)(ii) and (F) of the Internal Revenue Code the undersigned hereby applies for the Arizona Department of Housing (ADOH) to present a Qualified Contract for the purchase of the project listed below:

## CALCULATION WORKSHEET 2

### ADJUSTED INVESTOR EQUITY

The Qualified Contract Price includes the sum of the “Adjusted Investor Equity” with respect to the project. “Adjusted Investor Equity” is defined in Section 42(h)(6)(G) of the Internal Revenue Code as “with respect to any calendar year, the aggregate amount of cash that taxpayers invested with respect to the project, increased by the amount equal to - (I) such amount, multiplied by (II) the cost-of-living adjustment for such calendar year, determined under I.R.C. §1(f)(3) by substituting the base calendar year for ‘calendar year 1987’. An amount shall be taken into account as an investment in the project only to the extent there was an obligation to invest such amount as of the beginning of the credit period and to the extent such amount is reflected in the adjusted basis of the project”.

Not all capital contributions with respect to the project qualify as “Adjusted Investor Equity”. Specifically, cash invested in the project should be included in this Worksheet B only if each of the following is true:

- (i) The cash is contributed as a capital contribution and not as a loan or advance;
- (ii) The amount is reflected in the adjusted basis of the project (until there is further guidance from the Internal Revenue Service, the Department will interpret this to mean cash contributions used to directly fund adjusted basis and cash contributions used to pay off a construction or bridge loan, the proceeds of which directly funded adjusted basis); and
- (iii) There was an obligation to invest the amount as of the beginning of the credit period (until there is further guidance from the Internal Revenue Service, the Department will interpret this to include cash actually invested before the beginning of the credit period and cash invested after the beginning of the credit period for which there was an obligation to invest at the beginning of the credit period).

With respect to Calculation Worksheet 2, subsection (i) for each calendar year requires you to set forth the identity of the investor. Typically, this will be the tax credit investor (i.e. the investor limited partner); however, it may include a general partner if the cash investment by a general partner otherwise satisfies the requirements set forth above.

Calculation Worksheet 2, subsection (ii) requires you to set forth the amount of qualifying cash equity that was invested in the project for that calendar year. This amount should include only cash that was actually contributed to the project that year; it should not include amounts for which there was a mere obligation to invest.

Calculation Worksheet 2, subsection (iii) sets forth the cost-of-living adjustment for each calendar year. Investment amounts qualifying as investor equity are entitled to a cost-of-living adjustment. The Certified Public Accountant must calculate the applicable cost-of-living adjustment for each year based on the Consumer Price Index - All Urban Consumers (“CPI”) available through the U.S. Department of Labor, Bureau of Labor Statistics. Pursuant to I.R.C. § 1(f)(4) and 42(h)(6)(G)(ii) of the Internal Revenue Code, the CPI adjustment is calculated for each twelve (12) month period ending August 31<sup>st</sup>. Use the annual CPI adjustment for the period ending August 31, 2009.

After calculating the investment amount and cost-of-living adjustment, if any, for each year, enter this total to Summary of Qualified Contract Price, Section (A) line (ii).

### CALCULATION WORKSHEET 3

#### OTHER CAPITAL CONTRIBUTIONS

The Qualified Contract Price (“QCP”) includes the amount of other capital contributions made with respect to the project. For this reason, “other capital contributions may not be limited to cash, and therefore may include “in-kind” contributions such as land (at least until there is contrary guidance from the IRS). However, if non cash contributions are included, you must be able to justify the assigned value to ADOH; if operating deficit loans or advances don’t count as capital contributions:
